In Memoriam

Reba Jeanne Honer

Michael Lynn Wilson

Reba participated in many activities at North. She was loyal to both her friends and her school. She was an alternate cheerleader in her junior year and a candidate for Varsity Sue and junior-senior prom queen. Reba was also a member of Red Arrows, Pen Pals and Choir.

Mike resided in the city throughout his lifetime, 17 years. He attended John Marshall as a junior high student. Mike was a senior at North at the time of his death. While at North, Mike helped as a projectionist and worked as a service station attendant after school.

None of this year has
come to an end and
or has your car. Remember
lost with it? I want to see

Every day the sun rises and sets around the shrine. Inside her great walls can be found an education, even greater than that obtained from books. Her corridors are paths that lead to the highest phases of life. To all who enter her portals, her face carries a message. Her outer frame portrays the symbolic traditions of her environment.

The inner walls of her structure house a tremendous spirit, which is true of those who hold her up as their idol. Her hands extend a hearty welcome to all who seek new and glorious adventure. Those who delve into her books of knowledge will be rewarded for life.

During the day she is subjected to many trials and tribulations, but at night her strength is regained with silence. In the still of the dawn she poses for great artists, although the colors on their palettes cannot reproduce the splendid blending of her natural beauty.

In the fall a new flock of fledglings seek her support in an important task which is placed upon all who are yet young. During the winter months she watches girls become ladies, and boys become gentlemen. Then in the spring the fledglings fly away, having been fed wholesome provender gathered from the fields of knowledge, and she is once more alone.

But as mortals seek her aid in a troubled world, she can proudly hold her head up high, for she knows her educated children will face their problems with confidence.

Every day I approach my shrine, my temple. Yes, every time I gaze upon her beauty my heart swells with pride. My eyes and voice reflect my true feelings for you see she's my present life, she's my door to the world, she's NORTH HIGH.

DAGMAR MCGILL, '50

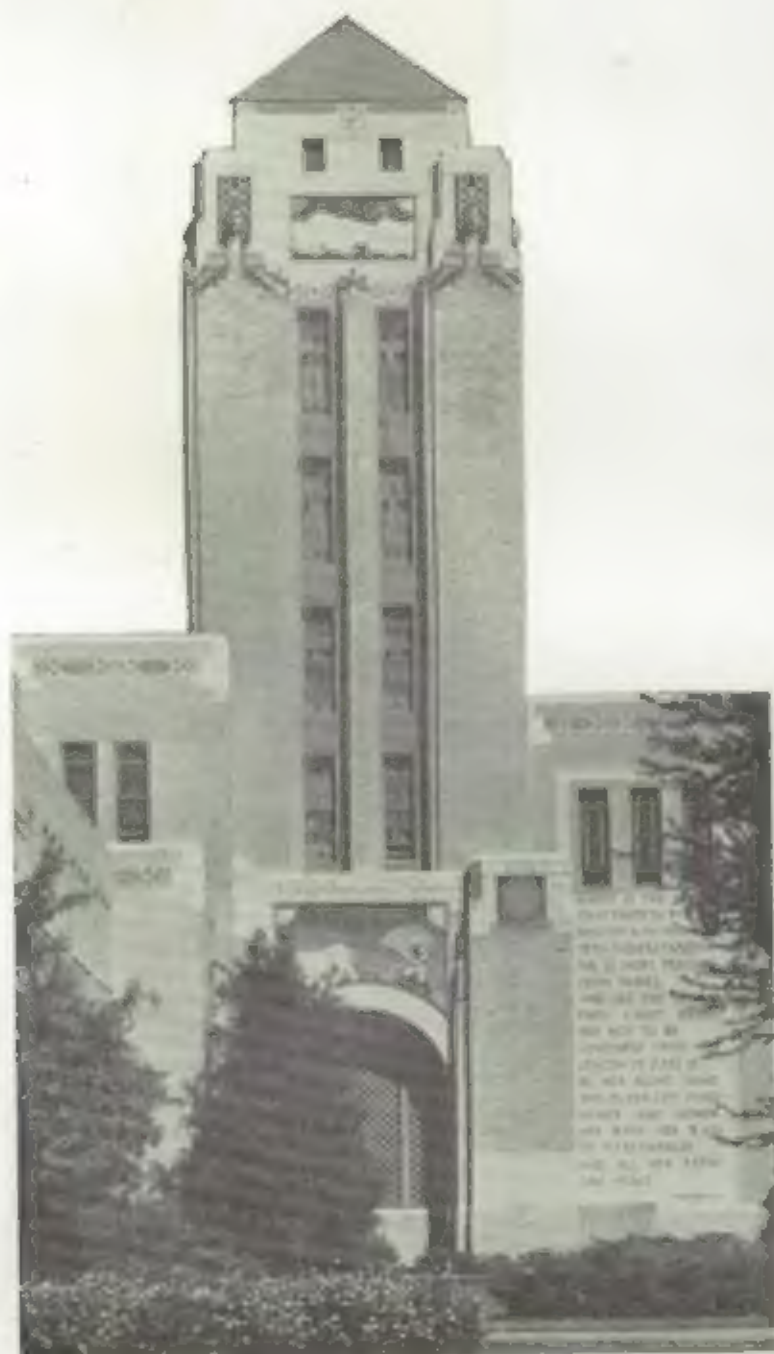

Within the walls of North High,
That surround us here today,
Dwell all our fondest memories
Though we're far, far away.

The splendor of her structure
Conceals with rich disguise
An even greater beauty
Which deep within her lies.

The friendships that we've made here
Live on though we'll depart;
The good times shared together
Forever warm each heart.

Her river and her tower,
Symbolic still shall be;
Her beauty and her splendor
Remain for all to see.

Administrators Lay Plans

C. E. Strange, principal, served North since 1944. His friendliness and strong dedication to his work showed his great interest in young people. He mastered the administrative problems and assumed the responsibility of attending many extra-curricular activities. Mr. Strange was admired and respected by those who were acquainted with him during the past year.

Dr. Wesley Lauterbach, vice-principal, had a variety of duties including the handling of disciplinary problems, schedules, enrollment and several of the activities.

Dean Stucky, assistant principal, also had many responsibilities. Some of his obligations were checking out students, making out pass cards and assigning detention.

Eighty-Two Teachers Teach Many Subjects in Eleven Fields

Varied courses were offered in North's eleven departments: art, business, foreign language, homemaking, industrial arts, language arts, mathematics, music, science, social studies and physical education. Sixty-five subjects were taught by eighty-two teachers, seven of whom were new this year. Seventy well-equipped classrooms held the eighteen hundred students quite comfortably.

North's faculty and office staff, led by the administration, worked together to prepare young people for the future. Their guidance and loyalty made North what it is today, an outstanding school for those who seek education.

As Marvin Garfield gave an assignment to his American history class, Gary Gregory prepared to study the next day's lesson.

Don Martinson explained one of the more difficult problems to his class.

Modern Equipment, Better Teaching Methods Aid Education

The 1961-1962 school year at North added many new methods of teaching. Teachers were required to take an English course in their third year. They chose from a number of courses including I, C, college reading, English literature, world literature, journalism, speech or dramatics. A new course added this year was English V, VI. This particular class was taught without the college emphasis.

New and better equipment was furnished to aid in demonstrations and provide learning by doing. A Mathmatical Press and Photo Unit were added to the industrial arts department. New acquisitions of the business department included Victor ten key adding machines, one Merchant calculator and the newest and latest invention in typewriters, the IBM Selective Student Typewriter.

The book rental system was discontinued. Each student taking at least four courses paid an eight dollar fee at the beginning of the school year for book rental. This program lifted the used book sales by the bookstore.

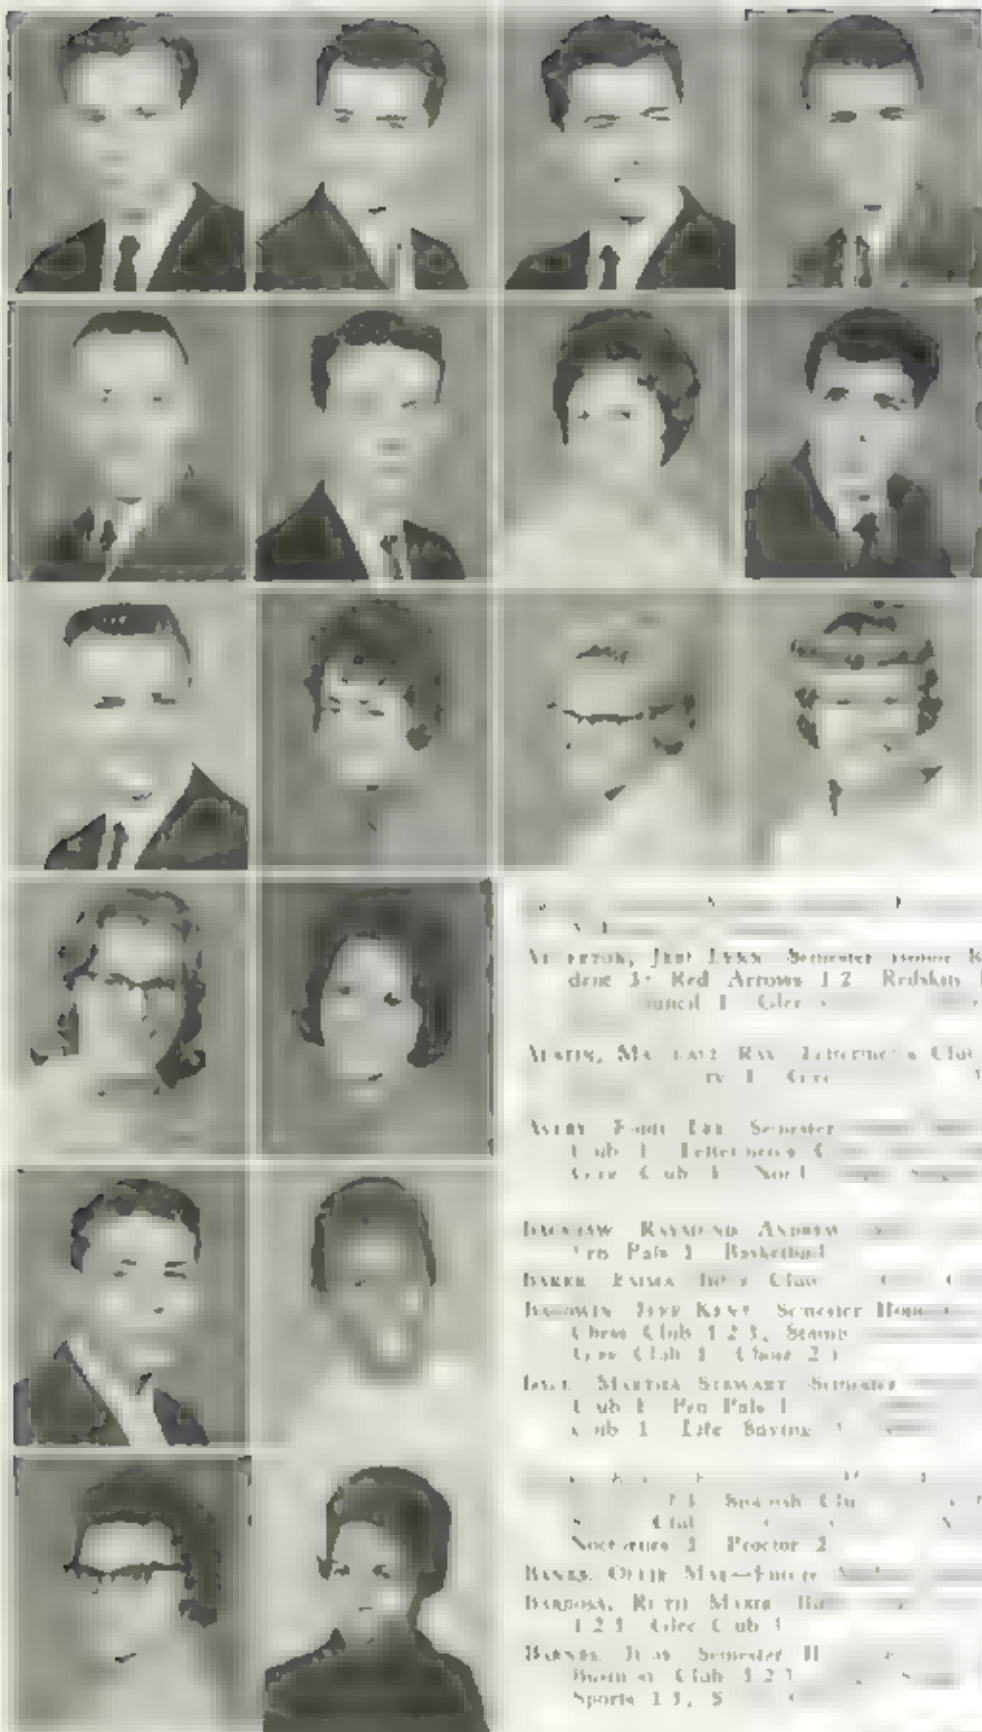

The PTA ice cream social was moved into the gymnasium because of cold weather. Around the table are Robert Temple, Mrs. Henry Johnston, Mrs. Randolph Woelk, Mr. Woelk, Mrs. Tom Lent, Mr. Lent, Hardy Dunn, Mrs. Dunn and Henry Johnston.

Having a "gab fest" are Paul Andree, J. W. Kincaid, Otto Irby and Charles Brooks. With his back turned is Robert Wright.

Sampling Christmas goodies at the annual homemaking department's party are Mrs. Lois McPherron and Miss Bernice Payne. Students serving are Sue Nazel and Beverly Bolan.

Officers Direct Fellow Juniors

The junior class officers were elected in the spring of their sophomore year by the members of their class. In October, the juniors sponsored an all-school dance, "Hitch Your Wagon to a Star."

The junior class officers, together with the senior class officers, planned the junior-senior prom, "Cupid's Ball," held February 3. The officers also chose the 1963 class rings.

Juniors helped in other school activities such as the water festival, pep assemblies and sports events. In the spring, the class elected officers for their senior year.

The members of the class of 1963 showed responsibility as they conquered the obstacles which faced them. They displayed many good qualities which will help make them outstanding seniors.

Girls Learn Sewing, Cooking

Girls in cooking classes not only learned to prepare delicious meals, but they also learned the importance of a balanced diet. Beginning seamstresses made two-piece outfits and simple dresses, while the more advanced students worked on suits and winter coats.

Both boys and girls studied in home and family living the ingredients that make a happy home and a successful marriage. In child care students learned the basic rules of effective child training and care.

Language Arts Courses Grow

Because this is the first year that seniors were required to take English, the English teachers were really busy

Sophomores read and studied "The Yearling," juniors struggled with research themes and "A Tale of Two Cities," and seniors studied English composition, college reading, and English and world literature

Beginning journalists wrote and wrote and wrote, advanced journalists rushed to meet newspaper deadlines, and the TOWER Staff organized the yearbook.

Social Science Minor Is Needed

One year of American history, a semester of United States government, and one other subject in the field of social science are required for graduation from North. Many students took one-semester courses in psychology or sociology, or a full year of world history to complete the requirements.

A few seniors were selected by history or government teachers to take international relations, a one-semester course dealing with the relationship of the United States to other countries. Others were selected for Honor Seminar, a course dealing with different forms of government.

Science Department Is Expanded

Science became extremely important in recent years. Scientists and their discoveries were in the public eye at all times. High school students of today had a chance to delve into science more than ever before. For the laboratory science required for graduation, students chose from biology, chemistry, geology, physics and physiology. Since beginning biology was offered during ninth grade, many students were able to take four or perhaps more science courses while in high school.

Mr. [Name] is one of the science teachers in the department.

Library Is Valuable Aid

In the library, students found reference materials on everything from automobiles to zebras. During the first two or three weeks of school, sophomore English classes visited the library and learned to use the card catalog and Readers' Guide. Members of all three classes gathered information for themes, reports and other projects. Non-fiction and fiction books also provided entertainment as well as information for the pupils.

Language Is Useful

French, Latin, and Spanish were offered at North for those interested in foreign language. Students used tapes in the language laboratories as supplements to their regular textbooks. They also held banquets and parties to increase understanding of different languages and countries.

Boys Acquire Skills

In physical education, boys participated in sports such as football, soccer, basketball, swimming, track, canoeing, tennis, and baseball. They also did calisthenics and other warm-up exercises in accordance with President Kennedy's physical fitness program. Each Friday, the boys chose their own activities. The coaches helped the boys to gain skills in various sports and taught them the rules of sportsmanship.

Mathematics Becomes More Important

Mathematics is being used more and more today in almost every field of endeavor. Business mathematics was offered at North for students whose plans follow a business career which does not require advanced mathematics. Many students took beginning and advanced algebra, as well as plane and solid geometry. Some advanced to more complex subjects such as trigonometry and probability and statistics. Students were becoming more interested in math as it became increasingly important in the space age of today

TOWER Staff Assembles Annual

The first semester NORTH STAR staff moved on to be the TOWER staff for the second semester. Although work on the TOWER began last summer, the staff did not meet as a unit until January.

The work on the yearbook consisted of scheduling and reducing pictures, writing copy and headlines, and laying out pages. The students made trips to the engraver and the printer to take out pictures and copy.

Mrs. Minnie Drowatzky, journalism advisor, instructed NORTH STAR and TOWER staffs. She also taught beginning journalism and English, prepared programs for football and basketball games and kept TOWER King and Queen a well-guarded secret.

Desire Is Named Factor in Football Success

When asked about the 1961 football team, Paul Andree, coach, stated that desire was a main point in Redskins' success. "This year's team had more desire than any team since I've been at North. This desire was a big factor in the 6-3 season the boys fashioned.

The 6-3 record does not tell the whole story, for of the three losses, two could have been victories. Salina won 12 to 7 on a last minute pass, and Southeast won 7 to 0 with a last quarter touchdown and conversion.

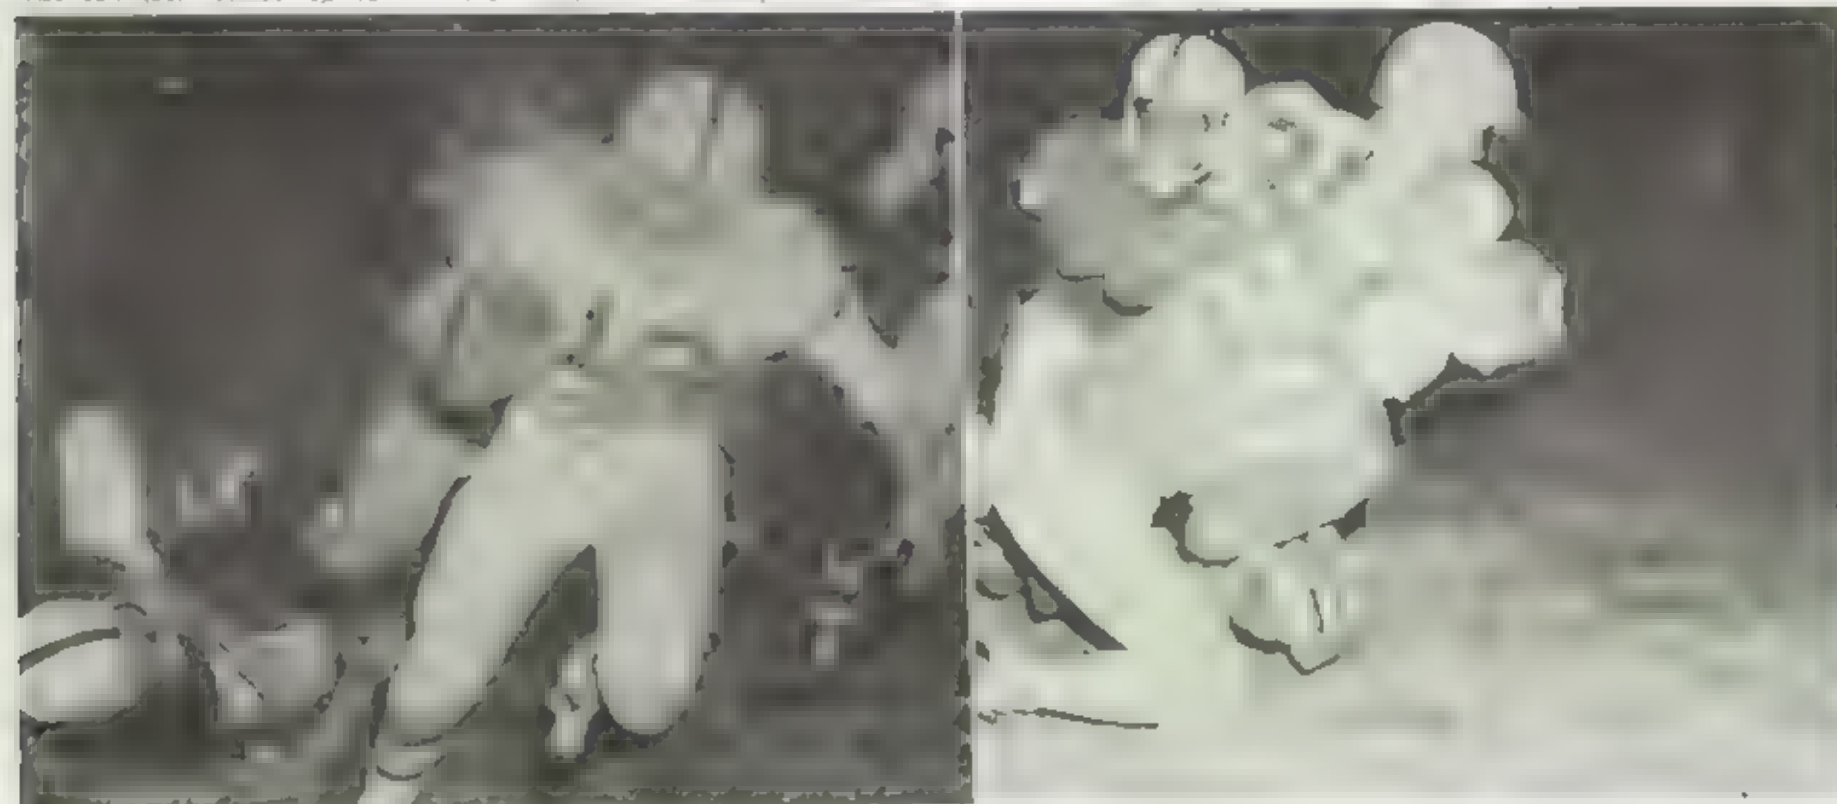

The defensive team on this year's squad provided many of the season's high points. For example, in the North-Kapaun game two goal-line stands in the closing minutes of the game proved to be the turning point of the game as North won 6 to 0.

Again in the West game it was the defense which assured the victory. By holding West for four downs within the three-yard line the defense saved a 20 to 14 win for the Redskins.

Underclassmen Show Promise

The North B squad began the season with four straight victories, only to suffer losses in the final two games. The offensive team was superior throughout the six games. North scored in every game, and the defense held its opponents to an average of 8.5 points a game.

The sophomore football team ended the season with two wins and four losses, three of the losses came by forfeits because of an ineligible player.

Both of the underclassmen squads showed promise with a fast backfield and a determined line. Next year's team will have the needed experience with ten lettermen returning.

During the regular season the North team captured a first place in the Southeast invitational in addition to a second and two third place finishes. The squad's leading runner will be back next year.

Charles Harper (79), Henry Bell (86), John Hewitt (83) and Pat McCarty (80) started the regional cross-country meet in which North finished third to qualify for the state meet.

Bad Luck Plagues Wrestlers

The wrestling team had bad luck the past season, ending the season with only two victories in eight dual meets. Though the records show six losses, this does not tell the whole story. The Red-skin matmen lost three meets by a one-point margin.

Marvin Albertson, wrestling in the 127 pound class and the 133 pound class, was the lone North wrestler to go undefeated until the regional meet. North tied for ninth in the regional meet, and by doing so sent two wrestlers to the state meet.

Redskins Take Regionals

The basketball team ended the season with fourteen wins and eight losses. Entering league play as defending champions the Redskins tied with South for second place. North finished league play with five wins and three losses.

This year marked the third straight year that North has won its regionals, and by doing so earned the right to play in the state tournament. North was placed against Wyandotte in the first game and was eliminated by the Bulldogs.

Riney Lochmann, a member of the basketball squad for three years, was picked before the season as a pre-season All-American by Dell Sports Magazine. Riney was also selected to the All-State first team.

Gene Hinkle attempted a free throw in the Derby game. Other North players were Gerald Rasdon (35) and Riney Lochmann (44). North won in an overtime 70-68.

Evan Johnson and Gene Hinkle tied up Bob Norton of West as Gerald Rasdon (35) looked on.

Finmen Show New Look

A swim team anchored by sophomores and juniors and an improved season's record was the new look at North this year. The team, of which only two were seniors, won four dual meets and were undefeated until the fourth swim meet of the season.

North sent eight finmen, six underclassmen, to the state meet, and although none placed in the meet, it was worthwhile experience for those members of future North swim teams.

Gymnasts, Putters Have Skill

The possibilities for a good gymnastics team for next year appear good, for North will have two returning lettermen. These boys, along with others from North, qualified and represented North in the State gymnastics meet.

Courtney Worrey performed his routine on the horse.

The golf squad with five returning lettermen had a good chance of copping the City League title this year. In its first outing the golf team impressively beat West 53 to 25.

Track Team Surprises Foes

The track team was a surprise to many of its opponents during the 1962 season. With only four returning lettermen to lead the squad, North was considered a pre-season underdog. After holding many hard practice sessions, the track squad entered the South Invitational and the East Invitational.

Riney Lochmann, running anchor, sprinted for his finishing line in the relay race.

Jim Smith and Pat McCarty finished first in the 880-yard race.

Up against some of the finest athletes in the state, the North track team placed second in both meets. Following these invitational, North was host to eight schools in the North Invitational. Filled with determination, the Redskins came home with 55½ points to capture first place.

Robbie Bell, left "flew through the air with the greatest of ease" in the broad jump. Mack McDoniel, center, attempted to clear the bar at six feet four inches. Gene Hinkle, right, displayed the form which enabled him to be North's top hurdler.

Pitching Machine Is Valuable

Six returning lettermen and a host of talented underclassmen boosted the baseball team's chances in the scramble for the City League title and possibly a state championship.

In winning two of its first three games, the baseball squad pounded out 23 hits to show the value of the newly purchased pitching machine. The machine, which hurls the balls almost 90 miles per hour, enabled the Redskin sluggers to perfect their batting styles and their averages.

Netsters Reign as Champions

The North tennis squad began league play as the defending champions. North has finished either first or in a tie for first since the Wichita Public School League was organized. The Redskins were co-champions with East in 1958 and have reigned as champion since the 1959 season.

This year's team was supported by five returning lettermen. Although the five lettermen were seniors, the juniors and sophomores obtained valuable experience by playing in the B meets.

Boys on the tennis squad were: first row, left to right, Walter Mooney, Terry Lee, Walter Fisch, Richard Lawson, Gary Wright, Bill Rapps, Henry Blase, Ted Field, Bill Plant, Neil Delapp, J. D. Unruh, Dale Davis. Second row, Earl Foltz, coach; Ken Hatfield, Gary Gregory, Raymond Harshfield, Richard Anderson, Steve Arnold, Tom Plant, Bill Lewis, Paul Kuhn, Charles Herbert, Dave Jackson, Andy Yackey, Paul Michelson, David Sproul, David Simmonds, manager.
